

DER SPIEGEL – Hamburg

Object:

The new building of the Spiegel-Group in Hamburg is located in an excellent surrounding of the new Harbour city next to the river Elbe. The attractive and sun-drenched architecture is one of the most modern media building in Europe. The energy saving instantaneous water heater MDX 7 by CLAGE is responsible for hot water supply in tea kitchens and at hand wash basins. The new Spiegel-house was certified with the "HafenCity Environment sign Gold" because of the remarkable high sustainability and the lower demand of energy.
